University of Auckland | Bachelor of Engineering (Honours) | Mechatronics engineering

SUMMARY

An adaptable learner with proven communication skills. From participating in a variety of extracurriculars and working in jobs that demand strong soft skills, I have developed strong problem-solving, collaboration, and technical skills on top of what I learnt during university. This is backed by a strong academic record – a GPA of 8.75, placements for competitions in clubs. My motivations also go beyond university; I have my own personal commitments, projects, and enjoy dedicating myself to meet them.

WORK EXPERIENCE

Nexus Tutoring (online tutoring)

- Mentoring* - Gave personalised explanations and advice to students.
- Scheduling* - Organising and planning tutoring times.
- Correspondence* - Addressing questions or giving feedback to students.

EXTRACURRICULAR/ HOBBIES

UoA case club

Club that hosts case competitions.

- I collaborated with other students to analyse business challenges and develop consulting-style solutions.
- Achieved a highest placement of 3rd.

UoA policy club

Club that hosts policy competitions

- I collaborated with other students to develop policy proposals addressing current societal issue.
- Achieved a highest placement of 3rd in competition.

UoA aeronautics club

Club that works on aeronautics related projects.

- I joined the RC team to work on an RC plane with a team of other students.
- Placed 1st in a Hackathon to develop an aeronautics related solution in agriculture held at the club.

UoA muay thai and UoA brazilian jiu-jitsu club

Clubs that holds training sessions for martial arts.

- Participated frequently in trainings.

Music

I practice piano daily and have been playing for 6 years+, and I'm mainly self taught.

Language

I've been learning Japanese in my own time for 2 years+, with flash cards and Japanese media.

Exercise

Running, weight training and practicing calisthenics skills like the hand stand.

Side projects

Currently, I've started to learn android development and have been working on a grocery tracking app.
